

ARYMA

JOB DESCRIPTION: Assistant Marquetry Artist

Main Duties

Assist in the development and preparation of designs to a standard suitable for presentation to customer

Assist in the preparation of production programmes for laser cutting of materials used in marquetry

Select and cut veneers using suitable tools & equipment, i.e. laser cutters, milling machine, and hydraulic press

Assemble marquetry overlays to agreed quality standards

Key Skills

Good IT skills: computer literate, confident and fluent with CAD and programming software and Microsoft applications. Training in our specific programmes will be provided.

Training will be given to perform high standard of operating skills of tools and equipment used in making of marquetry work, i.e. laser cutting equipment, guillotine, press and scalpels.

Strong communication skills

High level of manual dexterity

Key Competencies in role

Ability to apply a creative and imaginative approach to developing and refining designs

Ability to understand customer's requirements and anticipate potential areas of difficulty within a marquetry project

Ability to work well with others and confidence to work alone

Motivated to drive marquetry projects through to completion without need of close management

Patient, calm, composed & diligent approach to time-consuming and detailed marquetry

General

Reporting to Managing Director
